**Sense of God's call** As a 6th generation Lutheran I feel I have been called to serve to the best of my ability from a very young age, you could say it's in my blood. One of my first memories is leading a Churchwide Assembly in prayer at the age of 5. I don't remember being asked but I know I've answered God's call in a very literal way before I could conceptualize abstract thought. From before this moment and through my graduation from Grace Lutheran in River Forest, Illinois I have been raised in Lutheran theology and it would be my honor to use this opportunity to give back to the Lutheran community that made me who I am.

**Skills/Experiences** In this office I will be able to use my experience as a young adult Lutheran to give voice to those in my age group. Unfortunately this is a group that is often underrepresented in the Lutheran Church. I am confident my involvement in Synod Council will allow Young Adults in the Synod to feel heard as I act as our representative.
